

Pratik K

MERN Stack Developer | React.js | Node.js | Immediate Joiner

Pune, MH | pratikkamble765@gmail.com | +91 9730970857 | <https://www.linkedin.com/in/pratik-kamble-32aba1202/> | <https://github.com/Pratik765/>

PROFESSIONAL SUMMARY

MERN Stack Developer with 2.5+ years of hands-on experience building scalable web applications using React.js, Node.js, Express and MongoDB. Delivered production features with measurable impact (25% fewer re-renders, 20% faster API responses). Experienced in microservices architecture, JWT/RBAC security, Redux Toolkit and mentoring developers. Strong academic background (M.Sc. CS, University 2nd Rank). Seeking mid-level React.js / MERN Stack roles in Pune.

TECHNICAL SKILLS

- **Frontend:** React.js (Hooks, Context, Lazy Loading), Next.js, Redux Toolkit, React Router v6+, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Axios, Responsive Design.
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, bcrypt, RBAC, Middleware, MVC Architecture, Microservices, API Gateway.
- **Database:** MongoDB (Aggregation, Indexing, Schema Design), Mongoose ODM.
- **DevOps & Tools:** Docker, Git & GitHub, GitHub Actions (CI/CD), Vite, Postman, npm, Razorpay, Jest, React Testing Library, AWS (basic), Code Review, Technical Mentoring.

KEY PROJECT

PeopleCore HRMS – MERN, Microservices | github.com/Pratik765/peoplecore Jan 2026 – Present

- Built scalable HRMS using full MERN stack and microservices architecture to manage employee lifecycle end-to-end.
- Architected 9 secure microservices with JWT, bcrypt and RBAC ensuring role-based access control across all HR modules.
- Integrated Razorpay payment gateway for payroll transactions with secure order creation and reliable webhook handling.
- Developed responsive React UI with Redux Toolkit and protected routes, delivering smooth UX for critical HR workflows.
- Designed RESTful APIs and MongoDB schemas for data, improving modularity, scalability and long-term maintenance.

PROFESSIONAL EXPERIENCE

MERN stack Developer and Mentor - Know-IT (C-DAC ACTS), Pune Feb 2025 – Present

- Delivered 10+ full-stack MERN features that reduced API response time by 20% and achieved over 90% feature coverage.
- Architected and built 5 secure microservices with JWT, bcrypt and RBAC, protecting two live production applications.
- Optimized React frontends using Redux Toolkit and clean architecture, cutting unnecessary re-renders by 25% overall.
- Mentored 30+ project teams on full stack and authentication patterns, improving overall team delivery speed by 15%.

React.js Developer – Softron, Kolhapur Sept 2023 – Jan 2025

- Developed reusable React components with Hooks across 3 major web apps, elevating user experience and code quality.
- Implemented Redux Toolkit and React Router for state and navigation management, streamlining critical product features.
- Refactored legacy class-based modules to modern React Hooks patterns, reducing re-renders by 25% in key areas.
- Built fully responsive UIs using CSS3 and component-driven design, improving cross-device mobile usability by 15%.

EDUCATION

- **M.Sc. Computer Science – Shivaji University, Kolhapur** Nov 2021 – Aug 2023
 - CGPA: 9.67/10 | **Batch Topper** | **2nd ranker of the university**
 - **Awarded Shri Padma Padmaraj Kabbur Second Paritoshik for academic excellence**
- **B.Sc. Computer Science – Anna Saheb Dange College** July 2018 – Aug 2021
 - CGPA: **9.25/10** | **Batch Topper**

CERTIFICATION

- Certified in **React.js & Redux toolkit** – KG Coding.
- Certified in **Node.js, Express.js backend** – KG Coding.
- Ongoing certification in **MongoDB** – MongoDB University.
